## Homework | Study Environment

When deciding where your son should do his homework or study, consider the following:

- Make sure the **environment is moderately comfortable** (furniture, temperature),
- Somewhere where you will be **free of distractions** (phone, TV, music, etc.),
- If possible allow him to use a **space that is his** only and doesn't have to be shared with other family members,
- **Keep the space organized** with a specific place for paper, pens, books etc.

# Homework vs Study

## Study is...

- something that **takes organisation, time and effort;**
- a process of **doing things frequently;**
- **work that your son sets for himself;**
- **repeated practice** until he is confident;
- a way to **avoid the need to 'cram'** at the last minute;
- **growing in confidence** about his schoolwork and ability.

College

# Homework vs Study

## Homework & Study

- While **most learning occurs in the classroom**, **real understanding** is confirmed when your son;
  - **reviews** the work covered in class,
  - **tests** his understanding
  - **extends** his reading

Rostrevor  
College

# Homework vs Study

## General Study Tips

- Your son should not study within 30 minutes to 1 hour of going to sleep,
- **Prioritise!** He should make a list of what he intend to study and prioritise that list,
- Study no more than **35-45 minutes at a stretch**, and then **take breaks**,
- Take **breaks away from his desk** and do something different,
- Try to **continue daily habits** as usual (don't drastically reduce sleep, eliminate exercise, or over-eat).
